

designed for life

## The perfect blend

As part of its new Black Swan range, leading SDA brand, Swan has introduced an all-new **Traditional Red Electric Kettle model SK23010REDN**.

Whilst this new kettle is traditional in its looks, the feature line-up is anything but:

- 360° cordless base.
- Concealed stainless steel heating element.
- Safety locking lid.
- Automatic cut-off.
- Boil dry protection.
- Water level indicator.
- Large spout with removable and washable filter.
- Traditional design.

The all-new Black Swan Red Traditional Kettle model SK23010REDN will be available mid to late June with a SRP of £49.99 and will come in high-visibility packaging with stand-out feature guides.

This new Black Swan Traditional kettle is also available in cream, black and stainless steel finishes and all kettles have coordinating toaster models.

For further information on these and other leading Swan electrical products please visit [www.swan-brand.co.uk](http://www.swan-brand.co.uk) or call 01782 339 553
